

Product Information

Brett Alpha is a modular paving block with a tumbled surface specifically designed to create the appearance of a traditional aged pavement.

Available in four sizes, three thicknesses and five colours, Brett Alpha is suitable for nearly any application, from small domestic and residential jobs through to large urban and commercial projects.

Brett Alpha comes as standard in single size packs and has a number of complementary products available. These include mixed sized packs, circles and kerbs as well as permeable and machine lay options.

Brett Alpha pavements should be designed and constructed in accordance with the requirements of BS 7533.
